I'm a 3D Artist specialized in Architectural Visualization (ArchViz) and product CGI, experienced in producing photoreal renders, real-time previews and animations with Unreal Engine, Blender, Corona Renderer, KLING, VEO 3, and more.

Since early on, my dream has been to dive into cinema and the broader world of imagery – especially 3D. That passion drives me to keep learning, growing, winning and aiming high. I also care deeply about supporting others, because creativity thrives in collaboration.

In parallel, I work as a Performance Ads Designer (US agency, 2024–present), creating end-to-end creatives for Meta, LinkedIn, Reddit and Google: static, motion and UGC. I operate with fast iteration cycles and a data-driven mindset, preserving brand consistency and execution quality.

Key differentiator: advanced, professional AI applied to image and video. I integrate AI across the pipeline without sacrificing fidelity or craft: from from-scratch generation and visual ideation, to editing and enhancement (inpainting, upscaling, artifact correction, denoising), plus automation of creative workflows to accelerate delivery while keeping artistic control.

Tooling I master: ComfyUI, KLING, VEO 3, ArcadsAI, Runway, Google Gemini, Nano Banana, Visual Electric, Reve Image, etc.

What I deliver:
· ArchViz – photoreal exteriors/interiors, materials/lookdev, lighting, post; cinematic shots; interactive previews for review.
· Product CGI – stills and animated visuals with fine detail and realism.
· Performance Ads – multi-format production (1:1, 9:16, 16:9), speed-to-creative, data-guided iteration;
· AI Character & Voice – photorealistic human characters with accurate lip-sync and speech-to-movement synchronization, using Kling, VEO 3, Seedance, and ComfyUI.
· Post – high-end image retouch (Photoshop + AI), video editing, sound tweaks.

How I work: clear brief -> rapid prototypes -> short iteration loops -> controlled final delivery. Clean communication; organized versioning; backups and file hygiene. Open to art tests or proof-of-concepts.

Languages: Portuguese native · English C2 · French intermediate (B2 in progress) · Spanish intermediate · German beginner.
Mobility: Open to opportunities in French- and German-speaking Switzerland; preference for international English-friendly environments.
